MAJOR BOOST TO WYNDHAM INFRASTRUCTURE & SERVICES

LeadWest CEO, Anton Mayer, has welcomed the Rudd Government's investment in the City of Wyndham to the tune of \$9,812,672 in Financial Assistance Grants in this financial year.

"The Government's major investment in the City of Wyndham is testament to the fact that Wyndham is the fastest growing municipality in the country. The Rudd Government investment will ensure that the current community and future communities who call the City of Wyndham home, will have vital infrastructure and services available to them," Mr Mayer said.

Funding will be used to improve local roads, provide libraries, sporting grounds, swimming pools, community centres and other services.
